A Remarkable Case.

A large proportion of the American people are to-day dying from the effects of Dyspepsia or disordered liver. The result of these diseases upon the masses of intelligent and valuable people is most alarming, making life actually a burden instead of a pleasant existence of enjoyment and usefulness as it ought to be. There is no good reason for this, if you will only throw aside prejudice and skepticism, take the advice of Druggists and your friends, and try one bottle of Green's August Flower. Your speedy relief is certain. Millions of bottles of this medicine have been given away to try its virtues, with satisfactory results in every case. You can buy a sample bottle for 10 cents to try. Three doses will relieve the worst case. Positively sold by all Druggists on the Western Continent. *

From Hon. W. H. Jones, of West Dover, Vermont.

"I have been troubled from my boyhood with chronic or hereditary lung complaint. Some years since, early in the winter, I ook cold, which as usual settled into a severe cough, which continued to increase as the season advanced, although I made use of all the cough remedies I had knowledge of. My family physician also prescribed for me, but I felt no relief. During all this time I was gradually running down, losing flesh and strength, until my friends as well as myself, became very much alarmed, thinking I should waste away in consumption. While in Boston, during the spring following, I was induced to try WISTAR'S BALSAM OF WILD CHERRY. After one day's trial I was sensible that it was relieving me; in ten days time my cough had entirely ceased, and I was soon restored to my health and strength. I have ever since kept the BALSAM in my house, and whenever any member of my family has a cough or cold, it is immediately resorted to. No family should be without it." Sold by all druggists.

DENTISTRY.—Dr. Cool calls attention to the beautiful alluminium-lined vulcanit plates for upper and lower sets. The advantage of this work is that it is very thin much stronger and lighter than the common plate usually worn; also, being a better conductor of heat and cold, it does not produce the iritation, sometimes caused by rubber or non-conducting substances. I make these sets for $35, something never before done, and guarantee my patrons that after once wearing one of them they will wear no other. The treatment of diseased teeth and fine operating I make a specialty. Teeth built up with pure gold to their natural contour; artificial crowns adjusted to roots in the best manner. Work of every description done anywhere I engage to do at the most reasonable prices. #

The Machine was Worn Out.

Why? Not because it was not well built, but it was wrongly run. Thousands of men who have run down long before their three-score and ten years are accomplished, might have been renewed into sprightliness and vim if they had tried the well-known PERUVIAN SYRUP, which contains among its compounds the Protoxide of Iron, so combined that it assimilates with the blood and invigorates the whole system. This syrup has proved efficacious in thousands of cases, and will do everybody good who uses it. All druggists keep it. *

A Remarkable Result.

It makes no difference how many Physicians, or how much medicine you have tried, it is now an established fact that German Syrup is the only remedy which has given complete satisfaction in severe cases of Lung Disease. It is true there are yet thousands of persons who are predisposed to Throat and Lung Affections, Consumption, Hemorrhages, Asthma, Severe Colds settled on the Breast, Pneumonia, Whooping Cough, &c., who have no personal knowledge of Boschee's German Syrup. To such we would say that 50,000 dozen were sold last year without one complaint. Consumptives, try just one bottle. Regular size 75 cents. Sold by all Druggists in America. *

REMOVED,

A. GILMORE wishes to inform his friends and the public that he has removed to the Commission Store on Johnson street, where he will continue to sell at invoice prices.

Garments made to order at cost, as he is closing out that branch of his business

OLD CHICORY is almost a thing of the past. Finlayson's Coffee presides over the present. It has now superceded what used to be claimed as "superior to any other manufactured on this coast," and will soon be found on every well-furnished table in the Province. Prepared at his premises on Fort Street, and sold by all the principal dealers. *

EX CITY OF PANAMA.—Shears & Partridge received their Second Instalment of Autumn Goods consisting of Dress Goods, in all Wool Poplins, Saxony Serges, Black and Colored Cashmeres and Estermenes, Tweed Ulsters, Costumes, Shawls, and a very choice lot of Millinery Bonnets of the very latest London and Paris Fashions, the whole of which are marked very cheap to ensure a speedy sale.

LONDON HOUSE, Sept. 25th. *

IF heretofore you have been unable to wear a set of artificial teeth call on Dr. Cool. He will guarantee all his work *

ANOTHER WONDERFUL CURE

—EFFECTED BY—

California Elastic Truss !

CALIFORNIA ELASTIC TRUSS CO., W. J. Horne Proprietor—Dear Sir: I feel that I owe it to you and to humanity to write the fact that I have been *SUBSTANTIALLY CURED* of a bad case of rupture of thirty years' standing, by one of your incomparable Trusses, which I purchased from you three months ago. I cannot describe the suffering, both physically and mentally, that I have undergone during that period; and now I feel like a new being. I have worn all kinds of Trusses, both Steel and Elastic, and never received any permanent relief until I tried yours. Its simplicity of construction, and facility with which it can be adjusted, and the case and perfect freedom to the motions of the body with which it can be worn without causing any irritation, are its chief merits, and it is a perfect supporter. I have not had any sign of a return of the rupture since the first day I put it on and feel that I am *PERFECTLY CURED*. It is invaluable, and the fact should be known to the world. You can refer anyone to me on the subject of its merits. I am truly yours, ALFRED J. BURKE,

Come ye citizens and strangers,
Miners, sailors and Western rangers,
Listen to the truthful story,
Of Frank Campbell of Victoria.
He in truthful words will tell you
Just the goods he has to sell you.
Mind ye now he isn't joking,
If you are fond of chewing and smoking,
Or if you are given to snuffing,
What he keeps does not need puffing,
He has brands will suit you really,
Tobacco users prize them dearly;
From all parts of the "Old Dominion"
He has stock, and his opinion
Is that none can suit you better
They will please you to the letter.
His Cigars, just from 'Havana,'
Smoke in the most lovely manner;
Meerschaum pipes of style and fashion
Just to suit each taste and passion;
And it is in Canada stated,
His Tobaccos are celebrated;
Green Seal, Straight Cut, all go,
Big Lick, Big Cut, Wind Sap, also
All the Fine Cut Brands for chewing
That your teeth will never ruin;
Pipes to suit the inveterate smoker,
Cards for playing sinch or poker,
Pipes of briar and stems of cherry
More than any man can carry;
It would take a week to tell you
All the things he has to sell you,
While in town you may be stopping
At the "Adelphi Corner" drop in;
Campbell you'll find at that location
Ready to give you information,
Or to see you well provided,
With what is by all decided,
The smoker's and the chewer's glory,
The best and cheapest in Victoria.

POLITICAL.

TO THE ELECTORS OF THE VANCOUVER DISTRICT.

GENTLEMEN:—Having announced my intention of becoming a Candidate for the representation of this District at the ensuing election for the House of Commons, I may be permitted to explain my views on the leading questions affecting this Province.

1st—I believe that while we have a grievance against the Government of Canada for the non-fulfilment of Terms of Union, it would be highly injudicious on the part of the representatives from this Province to form a positive adhesion to either of the great political parties into which the Eastern Provinces are divided for the following reasons: 1st, because many of the questions which divide them have no existence among us; 2nd, because neither our people nor representatives can feel that interest in their politics which we otherwise would have done had Canada honorably endeavored to fulfil the railway obligations which she voluntarily incurred when we entered the Union. Entertaining this view, I shall, if elected, accord to the Government of the day a hearty support should their policy and actions indicate an immediate active, energetic commencement and continuous construction of the Canadian Pacific Railway through British Columbia.

Should Sir John A. Macdonald and party return to power, I should feel bound, if elected, to render him a hearty support in order that he may have a real opportunity of carrying out the grand scheme of a transcontinental railway across our own territory, and which was provided for in the Terms of Union which his Government negotiated with this Province.

Under the Terms of Union certain Orders in Council were passed by the Government of the Dominion declaring Esquimalt to be the terminus of the Canadian Pacific Railway, and a Reservation of the Public Lands from Esquimalt to Seymour Narrows, known as the 20-mile belt, was applied for by the Dominion Government and received by them from the Local Government and regarded as a portion of the Canadian Pacific Railway to all intents and purposes.

The Agricultural, Coal Mining and other interests would be promoted by the construction of the Island section as part of the Pacific Railway—the immediate prosecution of which would bring into active business life the entire section traversed. Farm products would find a ready market, labor of all kinds would be in demand, and as a consequence business would revive throughout the Province and confidence would again be restored.

Should, however, the Dominion Government find it impossible to retain Esquimalt as the terminus of the Railway on account of engineering difficulties, I would insist on an equitable indemnity for the whole line from Esquimalt to Seymour Narrows, as being justly due to Vancouver Island for the serious loss which we have sustained from the public lands between those two points having been locked up for such a lengthened period from pre-emption, settlement and development.

I would urge the necessity of more frequent mail communication throughout the District and Province generally, and would use my most earnest endeavors to obtain direct mail communication between Nanaimo and New Westminster, and would also do my utmost to obtain immediate Telegraphic communication between Nanaimo, Victoria and the other large shipping port of Burrard Inlet.

With regard to the Tariff question I entirely disagree with those who think that a variety of interests must necessarily conflict with each other. On the contrary, I maintain that the greater the number of interests we have in this district actually at work developing our varied resources the more certain are we of progression. I believe, therefore, that the tariff can be so readjusted as to be equitable to all, without increasing the present revenue tariff.

With regard to public and other buildings, such as a Drill Hall, etc., I would advocate that Nanaimo be placed upon an equal footing with the other cities of the Province. I will endeavor to visit every part of the District and will hold meetings, of which due notice will be given.

And, finally, should you favor me with your confidence, I can assure you that twenty years' residence in the Province—18 of which have been in the midst of your district—has enabled me to form conclusio which are more likely to be used to your advanta than can be expected from any other person whose interests and residence are outside of your district.

I have the honor to be, Gentlemen,
Yours respectfully,
D. W. GORDON.

DR. J. COLLIS BROWNE'S

(Ex Army Med. Staff),

CHLORODYNE

THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Ward stated that DR. COLLIS BROWNE was undoubtedly the inventor of CHLORODYNE; that the story of the defendant, Freeman, being the inventor was deliberately untrue which he regretted had been sworn to. Eminent Hospital Physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely and mean no other than Dr. Browne's.—See "Times," July 12, 1864.

Tee public, therefore, are cautioned against using any other than

DR. J. COLLIS BROWNE'S CHLORODYNE.

REMEDIAL USES AND ACTION.

This INVALUABLE REMEDY produces quiet, refreshing sleep, relieves pain, calms the nervous system, restores the deranged functions and stimulates healthy action of the secretions of the body without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvelous good effects and wonderful cures, while medical men extol its virtues most extensively, using it extensively in the following diseases:

Diseases in which it is found eminently useful—Cholera, Dysentery, Diarrhœa, Colics Coughs, Asthma, Cramp, Rheumatism, Neuralgia, Cough, Hysteria.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne.—See "Lancet," Dec. 31, 1864.

From A. Montgomery, Esq., late inspector of Hospitrls, Bombay: Chlorodyne is a most valuable remedy for Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after eighteen monts severe suffering, and when other medicines had failed.

Dr. Lowe, Medical Missionary in India, reports (Dec., 1865,) that in nearly every case of Cholera in which Dr. Collis Browne's Chlorodyne was administered the patient recovered.

Extract from "Medical Times," Jan. 10, 1866.—Chlorodyne is prescribed by scores of orthodox remedial practioners. Of course it would not thus be singularly popular did it not supply a want and fill a place.

Extract from the general Board of Health, London, as to its efficacy in Cholera.—So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases.

Beware of spurious and dangerous compounds sold as CHLORODYNE, from which frequent fatal results have followed.

Sold in bottles at 1s 1½d, 2s 9d, 4s 6d, and 11s each.

CAUTION.—None Genuine without the words "Dr. J. Collis Browne" on the Government stamp. Overwhelming medical testimony accompanies each bottle.

POLITICAL.

ELECTORS! RESERVE YOUR PLEDGES.

TO THE ELECTORS OF VANCOUVER DISTRICT.

GENTLEMEN:—HAVING BEEN CALLED UPON by a large number of merchants, farmers, workingmen and others to represent Vancouver District in the House of Commons at the ensuing general election, and believing that there never was a period in the history of our adopted country more critical than the present—when honest, industrious men, who constitute the bone and sinew of the commonwealth, should look after their rights—when commercial men who are in the channels of trade—enterprising men who develop the resources of the country—workingmen whose honest toil revolves the wheel of commerce and puts the whole machinery in motion—should give that attention and care to public interests which are justly expected of every true patriot and loyal citizen. And having, moreover, been intimately acquainted with the political interests of the Dominion in the Eastern Provinces, and having helped to place men in power who have been the workingman's friends and the friends of progress, such as the Hons. Sir J. A. Macdonald, Ontario; S. L. Tilley, N. B.; Dr. Tupper, N. S.; and J. C. Pope, P. E. I.; I shall, if elected by your suffrages, be found working shoulder to shoulder with such men fo. the country's weal.

I am led to this determination for the simple reason that the present Government have failed to act justly with British Columbia, after five years of unlimited power. They have given us no definite hope of the immediate construction of the Canadian Pacific Railway and no change of Tariff on account of our isolated and distant geographical position. I advocate therefore:

1. Immediate railway constructi and the honorable fulfilment of what is known as the Carnarvon Terms.

2. The erection of a Drydock at once as being, like the Railway, not only a Provincial but also a national necessity.

3. The importation free of duty of all material required for the rigging and fitting of ships that cannot be procured in this Province.

4. A just and equitable adjustment of both Export and Import Dues from a reciprocal point of view, which would benefit largely the Commercial, Mining, Agricultural and Lumbering interests of the Districts as well as of the whole Province.

5. I would also strive to secure a new Postoffice for the thriving city of Nanaimo, and failing in that, some improvement at least upon the shameful neglect of its present postal facilities.

Other local and provincial wants which may call for legislative redress shall receive, if I am elected, my serious attention and warmest support.

I shall take an early opportunity of holding public meetings in the various sections of your wide and extensive district (of which due notice will be given) at which I shall, as also in private intercourse, fully explain the course I intend to pursue, and hope as the result of that to receive your generous support.

I have the honor to be, Gentlemen,
Your obedient servant,
A. J. McLELLAN.
Nanaimo, June 14th, 1878. je30dw

TO THE ELECTORS OF SOOKE, LAKE SAANICH, COWICHAN, NANAIMO AND COMOX.

GENTLEMEN:—The very great favor with which my proposal to become a candidate for the representation of Vancouver District in the House of Commons has been received, although just on the eve of an election, and the satisfaction manifested by my numerous friends from Sooke to Comox, induce me to add my name to the number already soliciting your suffrages.

Several years have elapsed since I contested and nearly carried the seat for which I am again an aspirant. Then I was comparatively unknown and a stranger to many in the District. From 1872 to the present time the exercise of my duties as Superintendent of Education has brought me into personal contact with most of the electors. I trust that nearly seven years' educational work has secured for me such a reputation as will induce you to believe that if chosen as your representative at Ottawa I shall carry the same honesty of purpose, industry and energy into the political arena that my many friends in every part of the Province give me the credit of having shown in the establishment and conduct of our school system.

Experience and observation have only confirmed me in the political opinions which I had the honor to enunciate when prosecuting my canvass in the early days of Confederation. We have everything to gain and nothing to lose by a change in the Government a Ottawa. I need hardly announce, therefore, that I am still faithful in my allegiance to the party of which Sir John A. Macdonald is the leader. At the same time, if elected, I cannot promise to give that great party, either in opposition or in possession of the Treasury Benches, a blind, unreasoning and slavish support; because it can easily be imagined that questions may arise when to do so would be detrimental to the best interests of your large and influential district. Those interests shall always be paramount to every party consideration.

The claims upon the Dominion Government for the construction of the Island Railway, in which you are particularly interested, must be held inviolate. While other districts have been filling up with industrious immigrants, the settlement of Vancouver has been retarded by the withdrawal of all the Crown lands from preemption in the railway belt, thus rendering it impossible to form an estimate of the injury, direct and indirect, that has been perpetrated by the "how-not-to-do-it" policy of the Mackenzie Administration.

The present Tariff is not suited to all sections of the Dominion, I believe that a measure can be devised that will be fair and equitable to all the Provinces, and tend to foster and encourage manufacturing, agricultural and other interests throughout Canada. Being quite alive to the necessity of great caution in dealing with this question, I will here assure the electors that, if successful at the polls, their interests shall be made paramount to every other consideration when the proper time arrives for legislating upon a subject of so much importance.

With regard to questions of a local nature, such as postal, telegraphic, marine, etc., etc., which may come under the purview of the general government, I will, if returned, omit no opportunity of representing your wants and claims at the proper time and in the proper quarter.

No time will be lost in prosecuting a personal canvass throughout the district, and whenever practicable public meetings will be held, which will enable me to enter more into detail on the above-mentioned subjects, and touch upon others that cannot be discussed in the space usually allotted to an address of this description.

I have the honor to be,
Gentlemen,
Your very ob't serv't,
JOHN JESSOP.

SIR JOHN MACDONALD AND HIS CONSTITUENTS.

We have expressed regret that the personal organ of a politician who was the only British Columbia member that deserted Sir JOHN MACDONALD in the hour of his adversity, and who, in 1874, "thanked God that Sir JOHN had fallen and predicted that his defeat would prove a blessing to the country," should at this critical period have so far forgotten what was due to the Canadian Premier as to place words in the mouth of Sir JOHN MACDONALD that he never dreampt of uttering, and to publish far and wide throughout the Province that before Sir JOHN MACDONALD was enabled to secure a seat to represent Victoria he was forced to pledge himself to a policy that has for its aim the separation of this Province from the Dominion. We say that it is to be regretted that such a statement should have been put forth, because nothing could be more opposed to the truth or mischievous in its tendency. Had there existed the slightest reason for stating that a pledge of any kind was exacted from Sir JOHN MACDONALD prior to his becoming a candidate, some excuse would have been found. But when we assert that there exists not the slightest ground for the injurious statement that Sir JOHN was returned to represent this district unpledged; and that those who voted for him did so because they believe he will do all that lies in his power to carry out treaty obligations, we think the ground is fully covered. Certainly there was no pledge of any kind, direct or implied, which would lead any sane person to imagine for a moment that Sir JOHN MACDONALD stands unpledged to "*advocate separation.*" If the editor of our contemporary is the possessor of a pledge of the kind; if he has among his private papers a document that will bear that construction, we have no doubt the public would be pleased to see it, although surprise would be expressed that it had not been allowed to see the light until after the close of the poll. As a matter of fact, *we know* that no pledge was given by Sir JOHN. None was asked or expected. Beyond the general belief that he will do everything in his power to advance the interests of the Province there exists no understanding between Sir JOHN and this constituency.

We had hoped that our contemporary, after a calm review of the facts that led up to Sir JOHN's candidature and election, would have retraced its steps in yesterday's issue and explained that the fumes of the election champagne or of the matutinal cocktail were still running hot in his brain when the following sentences were penned:

"*Sir John Macdonald would never have consented to represent this district had he not been prepared to accord all that we have asked*—AND HIS ACCEPTING A SEAT FOR VICTORIA CARRIES WITH IT AN ENGAGEMENT TO SUPPORT THE RAILWAY POLICY OF THE PROVINCE. SIR JOHN IS THEREFORE PLEDGED AT THIS MOMENT TO COMMENCE RAILWAY CONSTRUCTION BEFORE 1ST MAY NEXT OR ADVOCATE SEPARATION."

But if we are to judge from his issue of yesterday the article was written after the effects of the jollification had died away and with a full knowledge of the gravity of the position in which it would place Sir John MACDONALD. It would appear that the only ground for the statement exists in the fact that Sir JOHN will represent Victoria. That were surely a poor excuse for the assertion that Sir JOHN MACDONALD was "pledged," before he could secure a seat here, to "advocate" the dismemberment of the Empire—that he stands committed to a policy which will inevitably destroy the proud structure of Confederation—the work of his own hands!

There should be no mistake upon this head. People must not be allowed to run away with the idea that Sir JOHN MACDONALD, *under any circumstances*, will be found advocating the breaking up of the Confederation. People may feel assured that he will do all that lies in his power to benefit British Columbia: that he will build the Island railway, pay over the subsidy for the dry dock, and push construction on the main line as rapidly as possible. But there is absolutely nothing on record, direct or implied, that furnishes the slightest pretext for the statement that Sir JOHN MACDONALD is pledged to "advocate separation," or even to encourage British Columbia in an effort to withdraw from the union. Steps have been taken to stamp the article of our contemporary as it deserves to be stamped, so that the antidote may accompany the poison on its journey to the Eastern provinces.

THE GLASGOW BANK FAILURE.

The ruin resulting from the great financial disaster at Glasgow promises to be more widespread than that which followed the collapse of RUSSELL, GURNEY & Co. in 1866. The liability of the shareholders is unlimited, and the announcement that a call of £600 per share of £100 will be required to meet the bank's liabilities means ruin to 50 per cent. of the shareholders, and a doubling of the call on the remaining 50 per cent. who are able to meet it. Hundreds of families will be beggared. Scores of persons whose slender incomes were derived from the dividends declared by the directors from time to time, will be cast upon the world penniless. Men and women reared in the lap of luxury will be reduced to want, and the wretched officers of the institution, who have falsified the accounts and violated their trust, will probably be consigned to long terms of imprisonment. Uneasiness in Glasgow is already great. Several builders have paid off their men, one builder, a shareholder, having dismissed all his employees on learning that the bank had gone under. In Inverness the agents of the bank had not received orders to stop payment, until £15,000 had been withdrawn by depositors. At another place the Postmaster withheld a telegram ordering the closing of the local branch of the bank until his friends had withdrawn their deposits. It is stated that certain ex-directors, ex-officials, their relatives and friends, are indebted to the bank upward of six millions sterling. Much surprise exists at the appointment of McGregor and Anderson to examine accounts of the bank, both being officially connected with the company and largely indebted to the fallen concern. The action by other banks in accommodating the broken bank tended to mitigate the disaster, but considerable uneasiness prevails respecting future revelations. Shipbuilding interests are certainly affected. The clannish action of other banks has averted it. For several years in London financial circles the Glasgow Bank has been considered unsound. The securities upon which the institution lent money were incredibly risky, and include some upon land in the far west of America and in Australia; on cattle in South America ranging the pampas, in pig iron and steel at the full value of four years ago. The shareholders, with the exception of the Caledonian Bank and the Duke of Sutherland, are not wealthy. There is the usual proportion of clergymen, widows, and spinsters. The Caledonian Bank became the proprietors of four shares because it advanced to customers on them. The American trade will hardly be affected much. All securities are considerably lower except United States which remain firm, banks taking them more freely and less margin than Indian stocks were. Within a few years the entire list of shareholders has changed. Whereas formerly rich merchants were among the proprietors, there does not now appear a single great financial name on the list. The difficulties of the bank appear to have been tided over, that a year might elapse without a crash, thus relieving the great proprietors from being called on as unlimited shareholders.

A JUST REBUKE.

The preliminary remarks made by Mr. Justice GRAY yesterday at the Supreme Court, previous to delivering judgment in the case of TAI CHONG *vs.* MAGUIRE, are deserving of public notice, inasmuch as they convey a scathing rebuke to a local print that has used his Honor's decision, declaring the Chinese Tax Bill unconstitutional, for party purposes. The learned judge very properly stated that such a proceeding is neither calculated to promote the public welfare nor to increase the moral strength which the administration of justice commands when free from the tincture of bias, and was clearly an attempt to drag the administration of justice into the political arena. We cannot but commend the learned judge's remarks, as well as his able and exhaustive decision, to our readers.

Another Spiritualist Exposed.

The London correspondent of the Liverpool *Mercury* writes: One of the most noted London mediums is Mr. Williams. He has been especially remarkable for producing John King, the spirit, with a black beard, clad in muslin, who has spent the greater part of his spiritual existence, during the last three years, in making himself materially manifest to the gaze of the people anxious to hear about the other life. John King has various accomplishments, and he is never produced without a great expenditure of money on the medium. In England Williams passed off magnificently. He must have had a fine income. He lived on the fat of the land. If he chose he might always have dined out. His career seemed likely to prosper in the end. But there has been a great demand for English mediums on the continent. Herne, the late partner of Williams, went abroad and produced the interlocked rings, which turned out to be manufactured. Williams himself went to the Hague. The Dutchmen suspected him. Last week they determined to test him. After he had gone into the dark cabinet to send John King out to the assembled believers in his magic, a descent was made upon him and his confederate. There was a free fight. The mediums nearly succeeded in getting off. But though they got away from the room, they found the front door locked, and were brought back ignominiously to undergo the operation of searching, a process which revealed that they had upon them all the materials for materializing. There were well worn false beards, handkerchiefs of soiled muslin, bottles of phosphoric oil (by which the "luminosities" of the *seance* were produced), a turban, a bottle of scent, and finally the materials for the slate trick. The last were minute pieces of slate pencil, so cut as to fit into a flat thin fish-bone, which could be easily introduced by a clever conjuror between the edges of a folded slate.

Decided Opinions.

Suppose that a man, avaricious and old,
Should come to me jingling his silver and gold,
And offer a share of his mammon to me
If I to the sale of myself would agree.
I wouldn't—would you?

Suppose a hero, too proud of his fame,
And big with the weight of a wonderful name,
Proposed in a moment of bland condescension
To give me his hand and a little attention—
I wouldn't—would you?

Suppose a man, with his heart in his eyes,
That shown like the light of the beautiful skies
Should promise to love me through all his glad life,
And begged that I'd be his own dear little wife.
Then I would—wouldn't you?

PEACE PROCLAIMED.—After ten years of active warfare! I have been at war with my customers for ten long years, and I am now ready to DYE FOR THEM at reduced rates. Gents' clothes cleaned and repaired; faded curtains and clothing restored and made to appear as good as when new. Customers abroad will not have reason to grumble at prices if they send their articles to T. W. Pierre, tailor and dyer, Yates street, next door to Reynolds' butcher shop. Castoff clothing taken in exchange for work. *

WE would certainly advise parents, guardians, and indeed all who have the care of children to go and inspect the splendid assortment of Boys' and Youths' Winter Clothing lately imported by Mr. Jeffree. *

The Water-logged Vessel.

The name of the water-logged vessel picked up a few days since off the mouth of the Straits by the bark W. H. Gawley, is the barkentine Free Trade. She recently loaded at Port Blakely with a cargo of some 300,000 feet of lumber for Australia, and struck on the coast about 30 miles outside of Cape Flattery, in the vicinity of Cape Beale. Subsequently she floated off. Her crew were conveyed by a pilot boat to Port Madison, whither the vessel, which was owned by a San Francisco firm, has been towed by the steamtug Polittoffsky. The captain and crew of the Gawley will be entitled to salvage.

The following dispatch from Port Townsend, dated the 24th inst., gives fuller details of the wreck than have yet come to hand:—

The barkentine Free Trade, which left this place October 15th, bound for Sydney, was water-logged October 18, ninety miles southwest of Cape Flattery, during a heavy southwest gale. John Thompson, seaman, a native of Denmark, was washed overboard and lost. The captain and crew abandoned the vessel, Oct. 21st, in one boat, the other boats being stove in. They landed the same night at an Indian village twenty miles below Cape Flattery, and were brought here this morning on the pilot schooner Letitia. The Free Trade was picked up on the 22d, opposite Cape Flattery, within one mile of Vancouver Island by the barkentine W. H. Gawley, Capt. McGuire, and was towed and sailed into Port Angeles, arriving on of the 23d, cargo intact—deck load saved. The water-logged vessel arrived here today in tow of the steamer Tacoma.

COMPLAINTS are continually made by residents in the neighborhood of Clover Point of the danger they experience from boys shooting. It is not safe to walk in the grounds there. Sunday is the day generally chosen. Last Sunday a boy fired from the road at a quail on a rock behind which a little girl was walking and she narrowly escaped being shot. The attention of the police to this matter is urgently directed.

THE steamer Enterprise left at 8 a.m. yesterday for New Westminster with the mails a good freight and the following passengers: Mrs. Lindsay, Mrs. Keogh, Mrs. Pybus, Miss Eikhoff, Miss Peart, and Messrs. J. Brown, Wm. Brown, R. Ward, W. D. Armstrong, Geo. Hawkins, D. A. McDonald, Jay, Jno. Hawkins, W. Pybus, Wyllie, Fee, C. Strouss and several others.

BIG BEAR.—A fine black bear weighing about 300lbs., trapped and subsequently shot by Mr. Weir of Metchosin, was on exhibition at Messrs. Goodacre & Dooley's Queen's Market yesterday. A few steaks from his bruinship's carcase still remain undisposed of.

COUNTY COURT.—There were no cases set down for hearing at this court yesterday.

Supreme Court.

[Before Mr. Justice Gray.]

FRIDAY, Oct. 25th.

Tai Chong vs. Maguire.

An application on behalf of the plaintiff for an attachment against the defendant for a contempt of Court in proceeding with the sale of plaintiff's goods under a warrant issued under the authority of an Act passed by the local legislature, entitled "An Act for the better collection of Provincial taxes from Chinese," notwithstanding that he had been served with a notice that an order had been made by the Court for an injunction to restrain him from further proceeding under that warrant, and that if he did proceed an application would be made to this Court to commit him for contempt.

Previous to delivering judgment in this case His Honor said:—I wish to make a few observations. Of course the moment a judgment is delivered by this Court it becomes public property and is open to all fair and reasonable comments. Neither individuals nor the press can be condemned for using it in any way that will best promote the public welfare; but I must say it does not promote the public welfare by using it for political purposes or attempting to turn it into an instrument of party or personal conflict. The moral strength which the administration of justice commands depends upon the conviction in the public mind that it cannot be and is not used for party purposes. Every man stands before the Court with equal rights to what the law has given him. The ablest men may differ as to what those rights are—may differ as to the policy which should govern the legislation on public questions, and still more as to the mode by which the best ends may be obtained; but no such difference can exist as to the conviction that the administration of justice should not only be free, but be considered free from any tincture of personal or party bias. Those who attempt to deprive it of this character weaken the protection with which the law surrounds every individual in the community. No language can be too strong to condemn the Judge who so far forgets his duty and his office as to lend himself to either party before the Court. The leaders of public opinion, therefore, who for private ends endeavor to mix up the administration of justice with political differences, do an injury to the public.

His Honor then proceeded to deliver judgment. He said: I have delayed delivering judgment in this case in view of the public interests. The necessity of maintaining the law must be addressed to the reason and intelligence of a community and is therefore always better understood when excitement has subsided; whatever may be the law of the land must be enforced; certainly in that respect is the sole guarantee for the rights of life, of property and of liberty to every individual without distinction. If the existing law is not in accord with the well fare of the state let it be altered by the properly constituted Legislative Assembly; but while it exists it must be obeyed. It is the duty of the judge before whom the question of its application arises to judge, not of its policy but of its enactments, and to carry out those enactments by the power and authority with which his office invests him. If that which professes to be law really is not law—not having been within the scope or constitutional authority of the legislature which passed it—it is his duty to say so, whatever may be the consequences. He has nothing to do with parties or politics or governments or classes or individuals or expediency. The consequences must rest with the legislature which represents the people. I desire to express myself on this point clearly to prevent any misunderstanding as to the casion when it becomes its duty to decide. course this Court will pursue on every oc-

His Honor then proceeded to review the affidavits put in and to refer to authorities bearing on the case, and having done so said:—

From these authorities three conclusions are deducible:

1st. That notice of an order having been made by a Court or Judge is sufficient when the exigencies of the case do not admit of delay (reasonable expedition being subsequently used in serving the order itself) the order operating from the time of its announcement by the Court or Judge—not from the time of its being reduced to writing by the officer of the Court and service.

2d. Disobedience after such notice constitutes in law a contempt of the Court, and the man who disobeys takes upon himself after such notice the risk of the consequences of disobedience, whether he believes it to be the order of the Court or not.

3d. That the mere assertion on oath of non-belief as to its being an order of the Court, or of absence of intention to disobey, affords no sufficient excuse, the credibility due to such assertion being like all other statements, liable to be tested by an examination of the surrounding circumstances. In considering the circumstances surrounding this case, it seems impossible to conclude that the defendant did believe that it was not an order of the Court with the notice of which he was served at the time of the sale. In the first place, as a bailiff acting in the enforcement of official duties, he must be presumed to know his duty, and if he does not, he, of his own accord, takes upon himself responsibilities for which he is unfit. In the second place, the writ or summons, with which he admits he was was served, told him distinctly by the endorsement written thereon that the plaintiff intended to make an application to the Court for an order of that nature. Thirdly, he knew as disclosed by his own statements that the legality of his proceedings would be contested. Fourthly, pending his proceedings he was served with a written notice telling him that the Court had made the order restraining him, which order was signed by an attorney in the cause, who would be liable to an indictment if the statement therein contained with reference to such order was untrue. Fifthly, the population in this community is not so extremely large that a bailiff is unlikely to know the members of the leading firms practicing law in the city. Sixthly—If he had paused in his act and simply asked the question of the crowd surrounding he would have received an answer which would at once have told him who both Mr. Jackson and Mr. Mills were.

Upon what reasonable grounds, then, can the assertion rest of the belief mentioned in his affidavit—assuming him to be a man of ordinary sense and intelligence? On no grounds whatever. So far from any desire or effort to find out what really was the truth, or whether he was correct in his asserted belief, he preferred to assume an air of indifference to and independence of the court—pointing out according to Mr. Mills' affidavit the distinction between notice of an order and the order itself. Yet in his affidavit he swears he did not believe it was an order of the court or he would have obeyed it. It is dangerous to play with edged tools. I think very little credit is due his assertions. Mr. Walkem, however, as the Attorney-General and leader of the Government, whose servant he was, assures the Court on his behalf that there really was no intentional disobedience. The respect which is due to the Attorney-General's position as the first law officer of the Crown and to the desire which must always exist with that offices in the public interests to aid the Court in maintaining law and enforcing order, will ensure to the defendant a leniency which his own affidawit would not obtain for him and which his conduct apparently little deserves. As a subordinate officer he must learn that he is not constituted a tribunal to determine what is and what is not law. Taking the Attorney-General's assurance, I adjudge him guilty of a contempt in law only—not an intentional contempt—in disobeying the order of the Court, with notice of which he had been served, and I fine him the sum of $40 and that he stand committed until it be paid.

His Honor concluded by remarking that, had it not been for the assurance of the Attorney-General that there was no intentional disobedience on the part of the defendant, he would have fined him $500 and ordered that he stand committed until the fine be paid. His Honor then requested Mr. Harrison, jr., who appeared for the defendant, to deposit the sum of $950, the value of Chinese goods seized under the local Act, subject to further orders of the Court. His Honor intimated that plaintiff could take proceedings to recover value of the goods and damages resulting from the illegal seizure.

Messrs. Drake & Jackson and Mr. Robertson, Q. C., for plaintiff.

ORLEANS, FRANCE, Oct. 24.—The funeral of Bishop Dupanloup took place to-day. Thirty-five Bishops assisted in the obsequies.

WEST INDIES.

HAVANA, Oct., 23.—Advices from Santa Cruz to the 17th represent that the condition of that island since the insurrection is hopeless. About 100 negroes have been executed, but the insurrectionary spirit remains alive. St. Thomas has lost over $150,000 by the insurrection, while three million dollars would not cover the damages done in Santa Cruz.

ST. DOMINGO, Oct. 9.—A rising has occurred at Azua in favor of General Baez for president. General Guillermo is marching on Azua at the head of 2,000 men.

EASTERN STATES.

OMAHA, Oct. 23.—Doc. Goodell, arrested the other day at Atlantic, Iowa, for the Black Hill stage robbery, jumped from a car window of a Western bound U. P. Express last evening, 130 miles west of Omaha and made his escape.

NEW YORK, Oct. 24.—It is stated the Union and Central Pacific Railroads have completed arrangements with all Eastern lines by which California freights will be loaded separate in full car loads, and cars will run through with but one transfer. This, in conjunction with recent changes of schedule on Pacific railroads, gaining two days in time of delivery of freights at San Francisco, will enable shippers to receive property shipped from any point East in 14 days instead of 18 and 25, as heretofore.

BALTIMORE, Oct. 24.— Capt. Barker of the steamer Express, which left here on Tuesday for Washington, reports his vessel foundered in a gale at the mouth of the Potomac and passengers and crew probably lost. The Captain was rescued while drifting with fragments of the boat. Capt. Barker, in describing the wreck of the Express, says the sea was running at a great height, every wave washing the boat from stem to stern. Shortly after five o'clock on Wednesday morning there came a terrific splash and the crew had hardly time to realize what had occurred before a wave tore the saloon deck like so much paper work and the following wave swept it off to sea, and with it nearly all on board. All had secured life preservers. At the earliest period of the gale some of the officers tried to secure boats, but they were washed away and broken up. A moment after the upper deck had been carried away the hull rolled over and sank bottom upward. Those of the passengers and crew that could reach portions of the wreck clung to them, but the heavy sea washed them off again and at the breaking of dawn only eight persons could be seen. The Express had a crew of 21, all told, and as far as known 8 passengers. It is supposed that fully 20 lives were lost.

RUSSIA TO ASSIST AFGHANISTAN

Serious Condition of European Affairs.

DEATH OF CARDINAL CULLEN.

EUROPE.

LONDON, Oct. 24.—*Journal de St. Petersburg* strongly recommends that Russia assist the Ameer of Afghanistan with officers, arms and money to fortify the passes on which Russia's position in Asia depend. It states the Ameer has written to Gen. Kauffman declaring that his hope is in him alone. The Russian press unanimously advises that indirect aid be given the Ameer.

BERLIN, Oct. 24.—The *Tagespost*, which appeared to-day in place of *Berliner Freie Presse* has been confiscated and its further publication prohibited.

PARIS, Oct. 24.—Persons on trial for connection with the Socialist Congress have been condemned to various penalties of fine and imprisonment for six months or more, except two women who were acquitted.

LONDON, Oct. 24.—Vienna correspondents say—If the latest news be true, affairs near Constantinople are more and more assuming the same hostile phase as before the meeting of the Berlin Congress. Turkish troops have been moved into positions vacated by the Russians, and earthworks are being repaired and armed before Constantinople and Gallipoli. The Turks are arranging to increase their forces.

PARIS, Oct. 24.—It is stated that in consequence of the gravity of the situation between England and Afghanistan and the state of affairs in Turkey, a Cabinet Council was held at Versailles yesterday and will meet again to-day.

DUBLIN, Oct. 24.—The death of Cardinal Cullen was sudden. He only complained of indisposition Wednesday evening; grew worse on Thursday, when his heart's action was found rapidly failing and he died at 4 o'clock in the afternoon.

CONSTANTINOPLE, Oct. 24.—Arif Bey, President of the Red Crescent Committee, has gone to Mecca ostensibly to superintend the execution of sanitary arrangements to be adopted on the approach of the Coarbanbairm festival. The real motive, however, is to confer with the pilgrims from India, Afghanistan and Central Asia, who will reach Mecca in large numbers within the next month, to influence them favorably towards the British policy and adversely to Russia.

ST. PETERSBURG, Oct. 25.—Semi-official *Journal de St. Petersburg*, commenting on references to the Afghan question in Sir Stafford Northcote's recent speeches, says if Great Britain is aiming at extension of its frontier in Asia an attempt to carry out such a policy might easily lead to serious consequences.

DELAYED DISPATCHES.

EASTERN STATES.

NEW YORK, Oct. 22.—A Washington special says, the probable question of the Halifax award will be reviewed this winter, whatever may be done about the ultimate payment of the money. A claim is made by those who have been examining the subject that the British bill of particulars exactly as it was submitted, shows that the Canadians were entitled only to $120,000 annually, or to an aggregate of $1,200,000 for ten years. This is less than $1,500,000, instead of $5,000,000, the amount of the Halifax award, and against this, it is claimed, it would be fair to deduct the special duties on fish and fish oil remitted by the United States for Canada. This amount of itself would amount in ten years to $3,000,000. That would make the statement from the British commissioner's figures $1,500,000 in favor of the United States, instead of $5,000,000 in favor of Great Britain. The gentlemen connected with this business will undoubtedly be called upon to explain their conduct.

MEMPHIS, Oct. 23.—From six o'clock last night until noon to-day, undertakers report orders for eleven interments. The streets are thronged with returning refugees and business is being gradually resumed.

A Thirty Thousand Pound Bank Note.

An extraordinary affair happened about the year 1740. One of the directors of the Bank of England, a very rich man, had occasion for £30,000, which he was to pay as the price of an estate which he had just bought. To facilitate the matter he carried the sum to the bank and obtained for it a bank note. On his return he was called out upon some important business. He threw the note down carelessly on the mantlepiece, but when he came back to look it up, it was not to be found. No one had entered the room; he could not therefore suspect any person. At last, after much ineffectual search, he was persuaded that it had fallen into the fire. The director went to acquaint his colleagues with his misfortune, and as he was known to be a perfectly honest man, he was readily believed. It was only about twenty-four hours from the time that he deposited his money, and they thought it hard to refuse his request for a second note. He received it upon giving an obligation to restore the first note if it should ever be found or pay the money himself if it should ever be presented by any stranger. About eighty years afterward (the director having long been dead,) an unknown man presented the note at the bank and demanded payment. It was in vain that they mentioned to this person the transaction by which that note was anulled; he would not listen to it. He maintained that it had come to him from abroad and insisted on payment. The note was payable to bearer, and the £30,000 were paid to him. The heirs of the director would not listen to any demands of restitution, and the bank was obliged to sustain the loss. It was discovered afterwards that an architect, having purchased the director's house, had taken an order to build another on the same spot, and found the note in the crevice of the chimney, and made his discovery an engine for robbing the bank, in which he was entirely successful.

Journalism.

The New York *World* has a high and truthful sense of journalism, as every veteran of the profession will at once recognize in the following article. Says the *World:*

The task of the journalist is the most unremitting that is imposed upon man. The paper, while it lasts, must not rest. To suspend for a day is to yield and perish. The men who make newspapers, however subordinate, must continue to make them. If evils beset them, there is the more reason for not faltering. The journalist who leaves his journal when he should be there, is for ever disgraced. He cannot leave. He is infatuated with the news and with himself as its collector. The true journalist, like the Old Guard, dies but never surrenders. News is all-pervading, all-absorbing, all-binding. To have lived with it once is to have an unaccountable love for it. To be strongly charmed by it. The basilisk of type is fatal to him it breathes on.

DR. DRYSDALE, in a letter to the *Times*, calls attention to the fact that in Great Britain something like $75,000,000 a year is paid for tobacco. In Holland more money is spent on it than on bread. Dr. Drysdale, who is an authority, denounces this expenditure as worse than waste, the use of tobacco in any form being, he considered, a real vice—deleterious to health and vitality. Smokers and chewers of tobacco, he says, in a large percentage of cases, bring on blindness by their indulgence and produce a variety of other diseases. His statistics of the results of experiments on four-footed puppies are truly alarming, and should furnish a warning to bipeds. Who would wish to fall a prey to loss of appetite, swelling of the gums, loosening of the teeth, palsy of the leg, blindness, deafness and death from asthenia?

IT has been discovered that the hair of the deer is five times lighter than cork, and it is being used for life preservers in the United States.

Death of Nobiling.

Nobiling, the assassin died on Sept. 10th from the effect of his wounds, the immediate cause of death being inflammation of the lungs. On June 2nd, less than three weeks after Hodel's attempt on the Emperor's life, he fired twice with a double-barrelled gun at the Emperor of Germany from a window in the Avenue Unter den Linden, five minutes' walk from the scene of Hodel's exploit. The Emperor was riding by with only a personal attendant. He received about thirty shot in the head, face, both arms and back, When the assassin's door was forced open he fired upon and wounded the hotel-keeper, and also attempted to commit suicide, inflicting upon himself the wounds which have just proved fatal. He was born April 10, 1847, in Posen, and was carefully educated in the Government schools. He afterwards studied at the Universities of Halle and Leipzig, where he attended particularly the lectures on agriculture and political economy. At Leipzig he received the degree of Doctor of Philosophy in 1876, and he was distinguished at both universities for his industry. After graduating he was employed in one of the Government offices in Berlin and then in the office of the Minister of the Interior of Saxony, attending lectures on political economy at the same time. In 1877 he travelled through England, Belgium, France, Switzerland, and Austria, and then went to Berlin, where he passed some time in idleness. He always was a Socialist in theory, and held extravagant ideas, which, however, he did not carry into the management of his fortune. He attended Socialist meetings in Berlin, and sometimes spoke. Once he delivered a lecture on the countries through which he had travelled before the Socialistic Union for the Educating of the Workmen of Dresden. Three of Nobiling's brothers are officers in the Prussian army, and another graduated a short time ago from the University of Halle, and is an agricultural director in Saxony.

Two weeks ago Mrs Bowers, of Dungannon, the mother of several families in the northern townships, went with her step-daughter and grand-daughter to pick black-berries about two miles from home. They found the berry patch occupied by three bear cubs, who immediately took refuge in a pine tree. The grand-daughter was sent home to tell the "boys" to come along with guns, while the two women guarded the prisoners pending their arrival. But the shebear was the first to arrive, and put the step-daughter to flight. The old lady, however, was not so easily routed but maintained her position, disregarding the defiant attitude of the old bear, which advanced to within ten feet of the tree, sat on its haunches and rubbed its paws together as if challenging her to mortal combat. Meanwhile the cubs, perceiving their mother, made an attempt to descend the tree, in which only one of them was successful, the old lady driving the other two back with a stick. Mrs Bruin was apparently satisfied with the rescue of one of her cubs, for she beat a retreat, and left the other to an untimely death at the hands of the "boys," who soon arrived.

THE latest discovery in dentistry is that teeth can be transplanted from one mouth to another—a tooth that has done service for years or even decades being put into a vacant socket in a jaw and made to grow. The important part of it is that the teeth need not have been recently extracted. It requires rare skill, but the conditions of dental disease and life are being so earnestly studied and so thoroughly understood that it is believed that transplantation and grafting will soon supersede the present clumsy artificial contrivances.

JOHN EVANS dropped into Tyringham, Mass., two years ago, from nobody knows where. He would never explain who or what he was; but he soon became popular, and married the daughter of a resident. A few days ago he quit the table in the midst of dinner, went out of Tyringham, and has never been seen since. Why he disappeared is as much a mystery as where he came from. Even his wife only knows that while he remained he was a kind husband.
